Term Two started with the amazing Iluka Camp. The children had a wonderful time canoeing, tree-climbing, Stand Up Paddleboarding, snorkeling, walking and completing many other challenges. It was so fabulous to see all of the children extending themselves through new experiences. The children were beautifully behaved and we all came home exhausted.
Mornington Secondary College

Class 4s were invited to a day of orientation at Mornington Secondary College on Wednesday 27th. The Year 7 teachers provided a wealth of experiences for Grade four children from seven local primary schools. Our students participated in Technology, Science and Swimming. Everybody had a wonderful day and I was so proud of the beautiful behaviour displayed by our fantastic fours! All of the Year 7 teachers commented on what an awesome group they are.

Welcome to Matthew

We have welcomed a beautiful new student to the Class 4 this term, Matthew. He has already settled in wonderfully well. We are all so pleased he has joined us and look forward to everyone getting to know each other.

In class

In Maths we are currently focusing on Multiplication and Division. We are looking at different strategies for solving problems in this area of Maths. It is really important that children learn lots of different ways to complete calculations, it gives them a way of checking their answers and deepens their understanding of the four operations. Good mathematicians can solve one problem using lots of different strategies! Please support your child to learn the timetables by heart as this helps them in all areas of Maths. Later on in the term we will be looking at fractions, money and chance and data.

In our writing sessions we are looking at persuasive writing and covering the aspects of VCOP (punctuation, openers, vocabulary and connectives) within this genre. Later on in the term we will be working on narratives. It is important that you encourage your child to read at night and talk about what they have read. Alternatively you could read to them, which they will love.

We are really pleased that we will be continuing to work with Kaye on Woodwork again this term. The kids really enjoyed making their boomerangs and boats last term and are they are showing lots of improvement with their skills in this area.

We are looking forward to another fun packed term.

Kind regards

Jodie, Jaki and Linda
