When we had hands-on science come we did a lot of experiments on liquids, solids and gases. Here are some pictures I have collected to show you what we did.

By Luki

Building engineering hooks by drilling holes and sawing wood in Woodwork.

Experimenting with materials to find out which materials leak, soak or repel.

Here is Olive, Hailey and Lara doing their material experiment. Here we are doing an experiment on solids, liquids and gases.

Travis, Troy, Will and Elise are testing solids, liquids and gases using a balloon.

Matthew is preparing to make a sword by sanding his wood.

All picture descriptions are by Luki
Woodwork
In woodwork this term we have made 2 different types of hooks. One of those hooks was measured at an exact shape. The other was made out of a tree branch. I like woodwork because we get to build things from scratch like hooks or boomerangs.

By George

In woodwork we are whittling sticks to make a hook.

Tiah and Lachlan are in woodwork making hooks by drilling a hole in their pieces of wood.

Travis is sanding his wood to make a hook to hang up his clothes, hats and a bag.

In 3/4m we have been doing poetry here is an example of a poem
Beri was mad, made Mr huff sad,
The story was rad
In the book there was no dad
It was sad, rad, bad but mad
By Lara And Olive

Anna' catch up
In 3/4 M we have been learning poetry with the lovely Andrea. Working in groups of 3 or 4 we were challenged to come up with a poem about Environmental Sustainability. Here's my groups poem...
Care, love and respect, Mother Nature will accept.  
That all of the earth that came in bloom will come together and make a "BOOM!"  
If we give help to the needy, than those with lots shall not be greedy.  
For the people who crop bananas all day, in 5-10 years they'll go away, to global warming we will swarm. If we pollute our world will be gone.  
Earth, fire water and air. Love it all and we'll all share...  
The gift that Mother Nature provides is the love we all bloom in from the moment we open our eyes.  

In 3/4m we have read a book called Suri's Wall. Read the text carefully and do the quiz.  
'Suri walked alongside the wall, brushing her finger tips she loved every part of the wall, even the big iron gate that never opened, with the man who always stood next to it silent and still. The wall was Suri's only friend and the touch of stones gave her warmth.'  

Who was Suri's only friend?  
○ The man that stood silent and still  
○ The wall  
○ The big iron gate  

What was the wall?  
○ Stone  
○ Brick  
○ Paper/Cardboard  

At the started of the book did Suri?  
○ Walk  
○ Run  
○ Skip

**OCTOBER**

| MONDAY | 3<sup>RD</sup> | TERM 4 - SCHOOL RESUMES |

It has been a wonderful term, packed full of learning new and wonderful ideas. We have looked at the Properties of Materials, thought deeply about or reading and challenged ourselves in Math with loads of problem solving. Next term is set to be an exciting, fun filled time with numerous excursions to challenge the children and allow them to develop the values that are vital to live in the world we do. Kindness has been a focus for us, not only to others, but to ourselves. It is nice to acknowledge everyday something we a grateful for, something we love about ourselves.

Jodie and Linda
