Welcome back to Term 4! This year is quickly flying by and we have another busy term on the horizon.

The biggest item on our agenda this term is of course, our whole school production. The entire school has been working tirelessly on this for a long time now and it is fabulous to see it all coming together. Hopefully, you are already aware that our class, together with the Preps will be performing as dinosaurs. Each student needs to wear brown, green, black or beige pants and top. It would be preferable that the tops are plain but if they have a print on them we can turn them inside out. Jaki Phillips has been busy sewing the tails for every child and some lovely family members of our students will be applying face paint for the children on the day. If your child has any allergies to face paint please let us know prior to the day of the production. Can you please ensure that all costumes are at school by this Friday clearly labelled in a plastic bag?

We will be having a full dress rehearsal on Tuesday 25th October, the day before the production at Mornington Secondary College. We will be walking there and back during class time.

Also, if you haven’t already purchased tickets for the production please make sure you do so as soon as possible.

Space

Our topic this term is “Space” and we are already having loads of fun learning interesting facts about the amazing universe in which we live. So far we have created the planets from balloons and papier mache.
We then determined the distance each of these planets were from the sun using toilet paper squares! Ask your child if they can tell you which planets were closest or furthest from the sun. It was quite mind blowing to see the differences and just how far the planets were from each other.

Hats

As it is now Term 4, students need to wear their school hats outside during every recess and lunch time. If your child doesn’t have one could you please endeavour to get one asap as they will be asked to play in the under cover area if they do not have one.

Chickens

Our precious chicks that hatched at the end of last term have now grown large enough to live in the chicken coup at the back of the Junior Playground. It is lovely to be able to have them so close and watch them continue to grow.

Kind regards,

Deanne Thompson
